[Hiring Manager's Name]

[Company Name]

[Company Address]

Dear [Hiring Manager's Name],

I'm writing to express my genuine interest in the [Data Analyst / Software Developer] position at [Company Name]. I'm someone who enjoys solving problems, digging into data, and building tools that make everyday work more efficient.

Over the years, I've developed a strong foundation in both data analytics and full-stack development. I've built and maintained applications that help companies make better decisions—using technologies like Python, PHP, JavaScript, SQL, and data visualization tools such as Power BI and Tableau. What drives me most is seeing how clean, well-organized data and solid code can directly improve how teams operate.

I've always admired [Company Name] for its focus on innovation and creating practical solutions. I'm confident that my blend of technical skills, curiosity, and collaborative mindset would make me a valuable addition to your team.

Thank you for taking the time to review my application. I'd love the chance to talk more about how I can contribute to your projects and goals.

Best regards,

Brian Dla Rose Pimentel
